WORK EXPERIENCE

Full Stack Developer, *Kanguru Digital Agency (Remotely)*
09/2022 – Present | Montreal, QC
- Architect and scale high-load enterprise web applications using Laravel, Vue.js, and PostgreSQL in a containerized Docker environment.
- Implement real-time features using WebSockets and integrate complex third-party APIs including Box, Nylas, and client-side data pipelines.
- Integrate AI-powered capabilities to optimize user discovery and large-scale data retrieval.

Developers Team Lead, *WAM DENIM*
01/2022 – 05/2022 | Istanbul, Turkiye
- Led cross-functional engineering, marketing, and social media teams during the strategic offshore migration of core infrastructure from the Netherlands to Istanbul.
- Managed Dynamics 365 and C/AL customization while building decoupled Node.js microservices for targeted system extensions.

Full Stack Developer, *Limonist*
07/2021 – 12/2021 | Istanbul, Turkiye
- Developed and maintained diverse client web applications and custom features using Laravel, Vue.js, and MySQL in a fast-paced agency environment.

Full Stack Developer/Project Manager, *Remotify*
07/2020 – 06/2021 | Ankara, Turkiye
- Engineered a localized freelance marketplace platform (similar to Upwork) using Laravel, CodeIgniter, and MySQL, handling end-to-end feature delivery and user workflow management.

Full Stack Web Developer, *IGW Organization (Remotely)*
2016 – 2022 | Kabul, Afghanistan
- Developed an enterprise-grade ERP system using **ASP.NET, .NET, and SQL Server** to manage educational operations for thousands of nationwide students and support HR tracking for 1,000+ employees.
- Delivered customized web applications and backend solutions for external local clients using the same Microsoft technology stack.

Mobile Application Developer, *IGW Organization (Remotely)*
2020 – 2021 | Kabul, Afghanistan
- Developed cross-platform mobile applications using **React Native**, integrating seamlessly with robust enterprise **.NET backend APIs** and SQL Server databases.
